

Product Availability

You can **Check Availability** of Locke Supply products online. Availability requires a Customer Login Number (set by a Locke Supply associate) and a Home Branch. You can set/change your Home Branch from your **My Account** settings or from any product page.

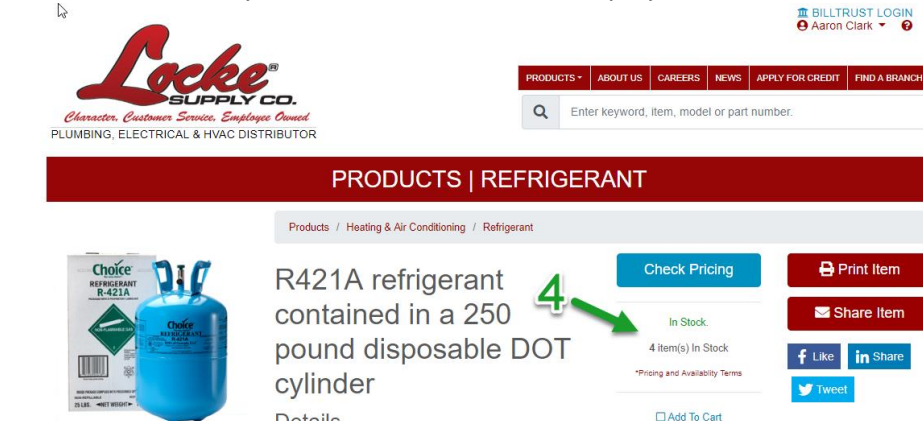

1. Click the **dropdown arrow**  next to your name to navigate to **My Account** to set your **Home Branch** and/or to **login**.
2. Navigate to the product you are shopping for. If your Home Branch is not set, click **Set Your Home Branch** and select the branch nearest to you.

3. Click the **Check Availability** button to see availability in your home branch.

4. The number of items **In Stock** at your Home Branch will be displayed.

Product Availability

- If the item is not stocked at your local store, you can click **local branch** to try another location or get contact information to see if they can order it for you.
